A CORDIAL WELCOME AWAITS YOU

February 28, 2010

There is a God

Robinson Crusoe discovered there was someone else on the island that he thought was deserted. He hadn't actually seen anyone; but what convinced him he was not alone? He saw their footprint. You see, he discovered that footprint in the sand on the beach and he knew it wasn't his. He knew that only a human could have made it. He knew that whoever had made it couldn't be far off because the tide hadn't erased it.

All those things he knew to be true, but he hadn't seen a human being within miles of the island, and his knowledge was all gained from a mark in the sand. If one print of a bare foot in the sand is absolute proof of the existence of a human being, what are we to suppose when we see the prints of the Master's shoe covering the whole world?

We see on mountains and valleys the prints of the "fingers of God." We see a million plants and trees that only God could make grow. We see all the rivers, lakes, and springs of the world fed from the tiniest "speck" to the greatest of the entire world.

What do all these things mean? These millions upon millions of footprints are on the clay of the world. They mean: God, living, present, ruling, loving, and forgiving. They mean there is a God; He is alive. "For since the creation of the world His invisible attributes are clearly seen, being understood by the things that are made even His eternal power and Godhead..." "Ro.1:20.

You and I come from a man made of clay, and yet we are made in God's image. Can people see His imprint on you?

— Frank
